

North American B25J Mitchell

- 1.
2. Radio compass
3. Repeater compass
4. Manifold pressure - 2 dial instrum. for left/right engine
5. Tachometer - 2 dial instrum. for left/right engine
6. Fuel gauge - auxiliary tank
7. Undercarriage pos.: green-down
red-in transition
no light-up
8. Airspeed indicator
9. Magnetic compass
10. Artificial horizon
11. Suction gauge
12. Fuel pressure - 2 dial instrument for left/right engine
13. Oil temperature - 2 dial instrument for left/right engine
14. Altimeter
15. Turn and bank indicator
16. Variometer
17. Clock
18. Carburetor air temperature gauge for left/right engine
19. Cylinder head temperature gauge for left/right engine
20. Oil temperature gauge for left/right engine
21. Air temperature
22. Fuel gauge - front tanks
23. Fuel gauge - rear tanks
24. Flaps and gear position indicator
25. Left engine throttle
26. Right engine throttle
27. Left side propeller pitch lever
28. Right side propeller pitch lever
29. Left engine supercharger lever: down position - stage 1
up position - stage 2
30. Right engine supercharger lever: down position - stage 1
up position - stage 2
31. Flaps lever
32. Left engine radiator lever: rear position - closed
front position - open
33. Right engine radiator lever: rear position - closed
front position - open
